

VENDOR CHECK-IN KIOSKS

THE VENDOR CHECK-IN KIOSK allows representatives to check-in and self-badge prior to entering a healthcare facility. KIOSK's turnkey solution offers the convenience of multiple check-in locations and unattended self-badging capabilities with a built in consumables alerting system, ensuring the credentialing system is never down.

All vendor credentialing kiosk hardware is customizable and scalable to accommodate space and cost limitations.

Software solution features:

- Remote monitoring solution for 100% network visibility on all facility entrances.
- Staff email alerts of activity at each entry, providing real-time kiosk functionality /maintenance attention notifications.
- Client portal access to manage the email alerts, reporting and peripherals of every device in network.
- Lock down browser with browser-based touch screen, customized with facility's brand.
- Capability to accommodate any vendor credentialing database service including Reprax and Vendor Credentialing Services (VCS).

Vendor check-in kiosks deliver the following facility benefits:

- Provides proof of vendor check-in compliance, strengthening access to federal funding requirements.
- Ensures each access point is always functional and available to vendors, providing a simple, unattended compliance mechanism.
- Reduces labor costs by eliminating expensive staffing stationed at all check-in locations.
- Provides cost-effective delivery with minimal maintenance or intervention required.

Vendor check-in price quotes are available from your KIOSK Sales Representative.
